Icarus Group Ironwork

Icarus Group Ironwork is a full service custom metal working, fabrication and welding services company.

Icarus Group Ironworks Inc. provides design, engineering and manufacturing of industrial and architectural details and related metalwork services.

We are expert fabricators of steel components, architectural steel elements, stairway systems and railings, utility structures and box girders.

Icarus Group Ironwork offers a full range of ornamental metal work capabilities.

Icarus Group Ironwork specializes in iron fencing, drive and garden gates, exterior and interior walkway railings, rolling-gate installations, standard and spiral staircases, as well as decorative and ornamental ironwork, contemporary and custom fabrication.

With impeccable craftsmanship, our skilled craftsmen can fabricate and weld just about anything from iron, bronze or steel. Icarus Group Ironwork products are custom built, top-quality and professionally installed.

Icarus Group Ironwork serves a wide range of metropolitan New York City and national clients, including industrial, institutional, commercial and residential clientele.

Our craftsmen create structural and ornamental metalwork for residential homes, apartments, stores and other commercial properties, office buildings, public spaces and government buildings.

We provide on-site welding of aluminum, stainless steel and wrought iron, metalwork fabrication and repair.
