Diagnosis: *Claustrophobia*  
Remarks \_\_\_\_\_

*Exhibits anxiousness when placed in tightly enclosed spaces. Has aversions to office cubicles. Patient showed remarkable improvement after a series of therapeutic driving sessions in a Honda Accord. Patient's initial fear of midsize cars was immediately allayed by the roomy interior with clean, simple, driver-friendly design. Patient became relaxed and energetic. Whether therapy will enable the patient to go back to the cubicle is undetermined, but she seems happy and expressed confidence in full recovery.*
